### CIMGUARD R562

RUST INHIBITOR

<b>APPLICATIONS</b>	<b>CIMGUARD R562</b> is a general purpose water-based rust inhibitor. This product is used for the prevention of rust on cast iron and steel during storage and shipment.
<b>FEATURES &amp; BENEFITS</b>	<p><b>CIMGUARD R562</b> is a synthetic product containing a blend of organic and inorganic rust inhibitors. It contains no nitrites or petroleum products, and will not leave an oily or tacky film on treated surfaces. The thin film left on treated parts is generally not visible to the eye.</p> <p><b>CIMGUARD R562</b> can be applied in spray, dip operations, and can be used in the final rinse stage of multi-stage parts washers. This product is designed to be diluted with water, the use dilution being determined by the nature of the operation and the level of protection desired. For use in washer rinse stages, concentrations of 2-5% are generally recommended. Concentrations of 10-20% are used in dip tank application where parts are being prepared for long-term storage or shipment.</p>
<b>TYPICAL PHYSICAL AND CHEMICAL PROPERTIES</b>	<p><b>Appearance:</b> Clear liquid <b>Odor:</b> Mild <b>Specific Gravity:</b> 1.1 <b>Density:</b> 9.2 Pounds per gallon <b>pH, undiluted:</b> 10.9 <b>pH, 2.0% Solution:</b> 9.5 <b>Use Dilution:</b> 2-20% <b>Packaging:</b> Available in 5 gal. pails, 55 gal. drums and bulk containers</p>
